#### REMARKS

Claims 1-22 and 24-25 are pending in the present reissue application. Claims 1-3, 5, 7-9, 11 and 16-19 were previously issued and are not being amended in this preliminary amendment. Claim 23 is being cancelled and Claims 4, 6, 10, 12-15 and 20-25 are being amended in this preliminary amendment. Support for the amendments to these claims can be

found in the accompanying document entitled "Statement of Status and Support for All Claims". The amendments to Claims 4, 6, 10, 12-15 and 20-25 place the claim set in a more appropriate format by correcting errors made in claim form and in claim dependencies, and do not expand the scope of the claims beyond that of the originally allowed claims.

It is believed that original United States Patent No. 6,083,966 is partly or wholly inoperative or invalid because the patentee claimed more than he had a right to claim in the patent by claiming the embodiment of Claim 23. Therefore, this is a narrowing reissue application in view of the cancellation of Claim 23.

#### CONCLUSION

It is submitted that all claims are in condition for allowance, and it is respectfully requested that the application be passed to issue. If the Examiner feels that a telephone conference would expedite prosecution of this case, the Examiner is invited to call the undersigned Attorney at (978) 341-0036.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
